Complete Your Lifestyle with Haatz

Haatz aims to complement its customers' lifestyles with a variety of products and optimal solutions.

Complete Built-In Systems

A complete line of products for your living space.
Haatz offers impeccable quality and maximum efficiency to its customers with its unique premium built-in systems.

Complete AQM Solutions

Indoor air quality management solutions.
Haatz delivers the cleanest, freshest air to its customers through its air quality management solutions.

Complete Custom Appliances

Products that perfectly meet your needs and trends.
Haatz develops unique and customized products that can complement its customers' lifestyles.

HAATZ SMART CONNECTIVITY

The hood starts automatically when the cooktop is turned on,
and completely removes harmful particles from cooking.

RANGE HOOD

Smart Connectivity between Hob & Range Hood

Do you forget to turn on the range hood every time you cook?
Enjoy convenient and healthy cooking with Haatz Smart Connectivity,
which automatically turns the range hood on when you cook,
removes harmful particles from cooking, and then turns it off.

Haatz SMART CONECTIVITY
SLIM LUNA SSL-60GLT

Weight 12 kg | Power 152 W | Voltage 220 V/60 Hz

Good Design
GD mark accredited

Material	Black glass + Painted steel
Air Volume (CMH)	490 / 360 / 290 (100 Pa, 3-level, 400)
Noise dB(A)	54 / 45 / 40
Filter	5-layer aluminum filter
Lighting	LED lamp
Switch	3-level touch
Air Outlet Size	Φ125
Features	Motor damper connector, filter cleaning signal

Hood Accessories
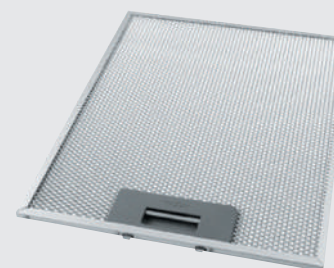

Three-Layer Aluminum Filter

The filter mounted on the hood reduces grease, dust, and heat in the air, enhancing the life and performance of the hood, and it can be used semi-permanently if cleaned once a month.

Motor Damper

Unlike regular dampers, the motor damper is closed when the hood is turned off, so it can block food odors and moisture from the outside, and minimize shaking and noise caused by outside air.

Grease Catcher

The grease catcher collects grease and oil dripping from the fan motor and prevents it from dripping onto the food during cooking.
It can be removed and cleaned when grease and oil reach a certain level and can be used semi-permanently.
(We recommend cleaning it every three months, and the cleaning frequency may vary depending on the cooking environment.)

Maintenance Products

Two Haatz Filter Cleaners

Hood filter cleaner
HC-MP1000, HC-MP500

- Stainless steel cleaner for hood filters
- An alkaline cleaner that effectively removes dirt and grease from the hood filter
- Self-safety check, child-resistant safety cap for safe use at home
- Content: 1 L, 500 ml

Special Cleaner for Stainless Steel

Special Cleaner for Stainless Steel
HC-MS540 (for hood surfaces and gas cooktops)

- Stainless steel cleaner for hood surfaces and gas cooktops
- Effective for stain removal, shining and surface protection on metal surfaces such as stainless steel
- Aerosol type for easy removal of grease, stains, fingerprints, water marks, etc.
- Content: 540 ㎖

* The air volume (CMH) and noise (dB) data in this catalog are from experiments conducted at zero static pressure in an anechoic chamber.

BUILT-IN

The Haatz Built-In Collection,
an attractive smart kitchen
